

CONSULTANCY SERVICES

SPECIAL LEARNING NEEDS

Learning 4 All provides professional learning workshops and information sessions for staff working in child care centres, preschools, kindergartens, schools (mainstream, special units, classes and special schools) and the broader community. We specialize in education and disability professional consultancy.

In addition to an extensive workshop calendar, we provide tailored consultancy services that are designed to meet the specific needs of educational settings. A tailored consultancy package can support with:

Individually designed programs for teachers and SSOs to model and support:

- Student goal setting
- Management of environmental changes
- Introduction of visual systems and augmentative communication methods
- Provision and development of resources and teaching strategies
- Curriculum planning
- Collaborative team approach.

Targeted consultation for leadership teams to support:

- Development and implementation of behaviour plans
- Recommendations to support inclusive practices
- Liaison with allied health professionals to foster a collaborative approach to student support
- Facilitation of teacher training to support the special learning needs of individual students
- Identification of areas of concern, assist with problem solving and support development of practical strategies
- Support to understand NDIS and how it relates to the student.

Negotiated Education Plan (NEP) development and implementation support

- Attend planning meetings
- Assist with the development of clear implementation strategies and measurable progress indicators.

Transition to school

- Identify key considerations to ensure successful transition
- Develop a plan to address and support student needs.
