

UNDERSTANDING FUNCTIONAL BEHAVIOUR

MONDAY 30 SEPTEMBER 2019

Kymberly Louise

**Behavioural
Scientist**

Learning 4 All

**STAFF IN MAINSTREAM KINDERGARTEN, PRE-SCHOOL, JUNIOR
PRIMARY, PRIMARY, SCHOOLS, AND SPECIAL EDUCATION ALL AGES**
This workshop is ideal for early career teachers and school support staff

NORTHERN VENUE – COOPERS ALE HOUSE, GEPPS CROSS

This workshop is suitable for staff in mainstream early years and primary school, and special education all ages across the three education sectors in South Australia. This workshop is best suited for staff teams to participate, as strategies discussed can involve hands-on 1-1 interaction, or site-wide change to reduce the instances of challenging functional behaviour. Learning outcomes include:

- Understanding the range of common student behaviours that function as strategies to change their environment, or their position within that environment, to reduce distress or discomfort
- Awareness of tools and processes for investigating the potential causes of student distress that lead to functional behaviour
- Development of strategies for responding to, and more importantly preventing, challenging behaviours that impede learning

Certificates will be provided that include reference to the Teacher Standards that apply to this workshop:

- ✓ Standard 4.1: Model effective practice and support colleagues to implement inclusive strategies that engage and support all students
- ✓ Standard 4.2: Model and share with colleagues a flexible repertoire of strategies for classroom management to ensure all students are engaged in purposeful activities
- ✓ Standard 4.3: Develop and share with colleagues a flexible repertoire of behaviour management strategies using expert knowledge and workplace experience

ABOUT THE PRESENTER

Kymberly is a behavioural scientist with a background in special education and student wellbeing, in addition to a degree in psychology. She currently works as a professional learning consultant for educators with students with special learning needs. In the past Kymberly has worked in metropolitan and remote locations to develop programs for families and educators whose students face barriers to education. Her professional goal is to use her knowledge of psychology with her experience working in special education and wellbeing within the education sector to work with educators in their quest to improve educational engagement and success for students and members of the school community.
