

# Special Education & PRIMARY Classroom Teachers

*Joanna Buttfield*

*Occupational Therapist, Kid Sense Child Development*

## MAKING MY CLASSROOM WORK FOR ME: DEVELOPING STUDENT ORGANISATION, SELF MANAGEMENT AND BEHAVIOUR TO ACCESS LEARNING EFFECTIVELY

**MONDAY 28 AUGUST 2017**

The workshop explores how to enrich learning experiences for all children including those who have a disability, developmental delay or those who are experiencing difficulties in learning. It is interactive with a practical focus and will include:

### **1. Information and practical strategies about:**

- Common obstacles/barriers to attentive learning
- How to develop organisation, self management and attentive behaviour in your students
- Identifying ways to support students that benefit everyone in the class
- Reflecting on your well established teaching style to identify what you could do differently

### **2. Resources:**

- Develop a “Learning Motivator Plan” that is specific to your classroom
- Review a range of resources that promote appropriate organisation and self management skills

### **3. Workshop Outcomes:**

- Participants will be able to identify student primary learning motivators and styles
- Unpack learning motivators and strategies for individual students
- Use this information to create a whole class plan.

*\*\* Participants are required to bring their class list (first names only) so that it can be used to create a Learning Motivator Plan which is relevant to each participant's class.*

**TIME:** 9.00AM – 3.30PM
