

School Holiday Workshop
COMMON DISORDERS IN SCHOOLS

FRIDAY 16TH JULY 2021

Kymberly Louise

Behavioural Scientist

Learning 4 All

**ALL STAFF IN ALL AGES MAINSTREAM OR SPECIAL EDUCATION
Including School Support staff, Early Career Teaching staff, and
TRTs**

NORTHERN VENUE

This workshop is intended for all school staff working with students who would like to gain a greater understanding of the factors relating to some of the more common disorders and learning/social difficulties found in classrooms. While most suited for school support staff, this workshop will act as a refresher for other staff who might benefit from a crash course in disorders such as Autism, ADD/ADHD, speech and language delay, dyslexia, dyscalculia, and depression/anxiety.

Learning outcomes for this workshop include:

- An awareness of the incidence and prevalence of common disorders in Australian classrooms
- Understanding what science can tell us about the physical, cognitive, and psychological factors that relate to the disorders
- Understanding how these disorders might impact learning and behaviour
- Awareness of reliable resources to further understanding and responsiveness in your practice
- Discussion of strategies to use in your practice to promote a positive learning experience for students and staff

Certificates will be provided that include reference to the Teacher Standards that apply to this workshop:

- ✓ **Standard 1.5: Differentiate teaching to meet the specific learning needs of students across the full range of abilities.** Demonstrate knowledge and understanding of strategies for differentiating teaching to meet the specific learning needs of students across the full range of abilities.
- ✓ **Standard 1.6: Strategies to support full participation of students with disability.** Design and implement teaching activities that support the participation and learning of students with disability and address relevant policy and legislative requirements.

ABOUT THE PRESENTER

Kymberly is a behavioural scientist with a background in special education and student wellbeing, in addition to a degree in psychology. She currently works as a professional learning consultant for educators with students with special learning needs.

In the past Kymberly has worked in metropolitan and remote locations to develop programs for families and educators whose students face barriers to education. Her professional goal is to use her knowledge of psychology with her experience working in special education and wellbeing within the education sector to work with educators in their quest to improve educational engagement and success for students and members of the school community
